Sir:

This is in response to the Reasons for Allowance attached to the Notice of Allowability (form PTOL-37), mailed May 11, 2004.

Although Applicants do not herewith express disagreement with the Examiner in her indication of reasons for the allowance of the claims of the instant application, Applicant notes that the allowed claims recite a plurality of features, and the patentability of the allowed claims should be considered to be based upon the totality of the features recited therein, *i.e.*, the invention "considered as a whole", as defining over the prior art. *Panduit Corp. v. Dennison Mfg. Co.*, 810 F.2d 1561, 1 USPQ2d 1593 (Fed. Cir. 1987). For example, Applicants submit that the reasons cited in the attachment to the Notice of Allowability do not preclude the existence of additional reasons that can be cited to support the patentability of the claims, *i.e.*, the independent claims as well as the various dependent claims.

Respectfully submitted,
Pascal THOMAS et al.
